26th December *1949*

Dear Sir,

19/1008

When the Hon'ble the Premier for the Government of Madras laid the foundation stone of the extension to the Leprosy Asylum on the 28th Octr. 1949 in his concluding speech he was pleased to express as follows:-

"In your address, a request is made to the Government, requiring land "and more funds for gardening and agricultural purposes and also for social "handicrafts and vocational training. Another request is made for en- "hancing the capitation grant for the reason that the rate at which the "grant is made at present is inadequate, in view of the level of prices "prevailing. - You know the acute financial condition which the Government "are labouring under, on account of which even schemes of top priority "are held up. The requests that you have made though laudable, all involve "financial implications. The Government will, however, consider your re- "quests sympathetically, and do whatever is feasible within the limits of "possibility."

From the above it would appear that some sort of increase or other would be given, to the extent possible, if and when funds permit. I am only putting this matter before you again so that when an early opportunity occurs, you will kindly put this matter before the Hon'ble the Premier and move in the matter.

With kind regards,

Yours sincerely,
Rag. Pai
Director.

To
The Private Secretary to the
Hon'ble Premier to the Govt. of
Madras, Fort St. George.

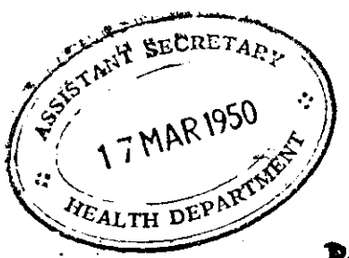
Sub: Grant - St. Joseph's Leprosy Hospital and Asylum, Kankanady, Mangalore - Payment of grant towards acquisition of lands, introduction of Agricultural Industry and Provision of Social Handicrafts and Vocational Training for the leprosy patients.

Ref: Govt. Memo.No.101008-49-1-L-P.H. dated 3-1-50

...



3180

I submit herewith for the orders of Government letter No.3333, dated 10-2-50 received from the Director, Father Muller's Charitable Institutions, Kankanady, Mangalore, South Kanara District, requesting financial assistance from Government towards the cost of land required for gardening and agricultural purposes(including a special grant towards the initial cost of the scheme for starting agricultural Industry in the asylum and also social handicrafts and vocational training) for the in-patients of the St. Joseph's Leprosy Hospital and asylum, Kankanady, Mangalore. Another request is also made for enhancing the present rate of capitation grant paid to the Management of the Institution.

2. So far as the question of acquisition of land is concerned, it has been ascertained that the land belonging to the Mission which was previously used for agricultural purposes has since been utilised for the purpose of erecting additional building in the institution and hence necessity has now arisen for acquiring more lands for the purpose. The lands proposed to be acquired are marked A & B in the attached site plan showing the position of the existing buildings and the location of the proposed extensions. The extent of land proposed to be acquired is 1 Acre and 51 cents and consists of 2 plots bearing survey Nos.18/9 and 10 of No.84 of Kankanady village in Mangalore Taluk of South Kanara District. The Director St. Joseph's Leprosy Hospital and asylum, Mangalore has pointd out that since land acquisition proceedings would take a long time, private negotiations have been entered into with the owner of the land for a consideration of Rs.6000/- in order to speed up the transaction. It is also reported that there is great demand for these lands from private individuals. The land proposed to be purchased is adjacent to the compound of the existing Leprosy Asylum. The District Medical Officer has inspected the site and has recommended that it may be purchased for agricultural purposes. I suggest that the question of paying any grant from the State funds towards the cost of these lands may be considered as a part II Scheme in connection with the Budget Estimate for 1951-52.

3. In addition to the land referred to in para. 2 above, the authorities of the institution have asked for a special money grant of Rs.1500/- towards the initial cost of the scheme for starting agricultural industry etc. in the asylum. From the details furnished by the Director it will be observed that a recurring expenditure of Rs.943/- towards the pay of one cooly and supervisor has been included I have called for from the authorities of the institution a brief note containing details of the scheme proposed to be introduced by them for starting agricultural Industry and also for providing social handicrafts and vocational training for the in-patients of the asylum and this will be submitted to Government on receipt together with my remarks as to whether the special grant now applied for by them cannot be restricted to half the actual non-recurring expenditure (i.e. the capital cost of the scheme) subject to a specified maximum say Rs.500/-. In any case, this proposal may also be considered along with the question of payment of grant towards the purchase of land referred to above in connection with the Budget Estimate for 1951-52.

1. As regards the request for ~~the~~ enhancing the rate of capitation grant, I would invite a reference to para. 3 of my letter Ref.No.12352-1B/50, dated 21-2-50 in connection with a similar request made by the Secretary for India, The Mission to Lepers. The question of the need for further enhancing the Rate of Capitation Grant will be examined in detail and necessary proposal submitted to Government in April next after the accounts of the current year are closed.

P27 wf

Yours faithfully,

for Surgeon-General with the Govt. of Madras.

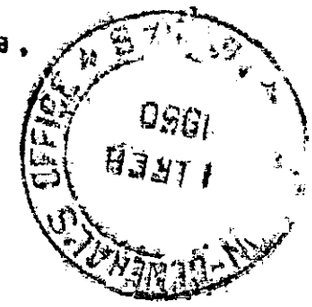
Rev.Fr.Reginald Pinto,
Director,
Father Muller's Charitable Institutions,
Kankanady, MANGALORE.



To

The Secretary to Government
Public Health Department
M A D R A S.

Through, The Surgeon-General to the Government of Madras,
M A D R A S.

Sir,

Sub: Leprosy Asylum-St.Joseph's (Father Muller's Charitable Institutions) Kankanady.
Ref: Address read to the Hon'ble Sri P.S.Kumaraswami Raja, Premier to the Government of Madras and extract from the speech made by the Hon'ble Premier.

I enclose a copy of the address read by the Rev.Director, Father Muller's Charitable Institutions, Kankanady, to the Hon'ble Premier to the Government of Madras and a copy of the extract of the speech delivered by the Hon'ble Premier on the 28th October 1949, so far as it is relevant to the present application praying for the grant of land and more funds for gardening and agricultural purposes and also for social handicrafts and vocational training for the Leprosy patients. The second request in this application relates to the extreme necessity of enhancing the capitation grant for the reason that the rate at which the grant is made at present is inadequate, in view of the level of prices prevailing.

So far as the land is concerned a separate reference Endt. No.101008/49--1--PH dated 3rd Jan.'50 has been received by me from the Government of Madras through the Surgeon-General and the District Medical Officer and the necessary report will be submitted as early as possible. With regard to details for funds for agricultural purposes, it is estimated that a lump sum of Rs.1500/- may at least be sanctioned at present for undertaking the scheme on a smaller scale. As regards my request for the enhancement of capitation grant, I beg to enclose herein a detail statement showing the deficit which the Leprosy Hospital is incurring every year on the maintenance and treatment of Leprosy patients. All this deficit has to be made good by the Hospital authorities.

The Hon'ble Premier added in his speech that this Leprosy Asylum is not of recent origin and that it was started several years ago and it is perhaps one of the earliest institutions that were established for rendering service to the Lepers. He also gave credit to the late Rev.Fr.Muller. A Copy of the remarks left by the Hon'ble Premier on the Visitors' book of Father Muller's Charitable Institutions on the 28th October 1949 also strengthens a good deal the request made. The several remarks left by the various Surgeon-Generals, Leprosy Officers, Collectors, Judges, Revenue Board Members, Ministers, and High Ecclesiastical Dignitaries speak a good deal of the very good work done by this Hospital towards the Leprosy patie

The yearly deficits though small or great have all along been met by Fr.Muller's Charitable Institutions. Now I feel that the Government could kindly lend us a helping hand by contributing as much as possible towards re-imbursing us in the matter of the losses we are incurring annually.

In view of all the difficulties explained above, I beg to request you kindly to bestow a thought in this direction and be pleased to enhance the capitation grant to the inmates of the St. Joseph's Leprosy Hospital and Asylum. The expenditure incurred in connection with Fr.Muller's main Hospital is met solely by the Institution itself and no assistance has been applied for in this direction from Government.

Yours faithfully,

Reg. Venito

(DIRECTOR)

Extracts from the address read to The Hon'ble Sri P. S. Kamaraswamy Raja, M.L.A., Premier, Government of Madras on the occassion of laying the Foundation Stone of St. Joseph's Leprosy Asylum of Father Muller's Charitable Institutions, Kankanady, on 28th October 1949.

**** * * * * * * * * * * * * *

Father Muller's keen eye saw that leprosy was a much dreaded disease in India, and with the ferlessness, courage, and faith in God -- that characterised all his actions, he decided to afford relief to the unfortunate sufferers from this disease. In 1890 the St. Joseph's Leprosy Asylum was begun with 30 patients on this very spot.

To start with, Fr. Muller opened the Homoeopathic Poor Dispensary in 1880 and soon after in 1890 he started the St. Joseph's Leprosy --- Asylum. In 1896 and 1901 he constructed two large general Hospitals, one for males and the other for females. In 1902 while Bubonic Plague was raging in the town of Mangalore, Fr. Muller in record time raised buildings and sheds to combat the malignant disease. Similarly in 1904 while cholera was prevailing in the town also, he undertook to -- treat patients himself with his band of selfless co-operators. In addition to these, today we have an extended leprosy hospital & asylum, new and separate special general wards for males and females with up-to date buildings and equipments, a meternity hospital, a presbytery for aged priests a radiological department and a pharmaceutical laboratory.

* * * * * * * * * * * * * * *

Mr. T. N. Jagadisan, Honorary Secretary, British Empire Leprosy Relief Association, Madras Province, and Secretary, Kasturba Branch, Leprosy Work, and Honorary Secretary, ad hoc Committee on Leprosy, has recorded the following remarks in our Visitor's Book -

> "I visited the Leprosy Home of Father Muller's Hospitals and rejoiced to find the place one of unusual cheerfulness. There is an air of kindly human care about the whole place which to one who has seen many leprosy institutions is a joy to witness. Father Pinto, Dr. Coelho and the Sisters are doing splendid work for which the public have to be immensely thankful. The public and the Government should help the institution to expand. I was distressed to hear of the pitiful pressure for admission which the Home could not meet. Compassion is the keynote of the Home's work and every one should help in this noble endeavour."

P.T.O.

The Hon'ble the Ministers and the Surgeon-Generals to the Government of Madras have time and again left on record encouraging similar impressions in general about the good work turned out in Father Muller's Institutions.

To

THE HON'BLE

Sri P. S. Kumaraswamy Raja, M. L. A.,

Premier,

GOVERNMENT OF MADRAS.

Sir,

On behalf of His Excellency the Bishop of Mangalore, the Father Muller's Charitable Institutions and the Dr. L. P. Fernandes' Memorial Committee, I have great pleasure in welcoming you here today.

Mangalore, though situated far away from the Headquarters, is nevertheless an important link in the trade and economy of this Province; and its far-famed tiles and its coffee-curing and cashew-nut industries are well known. We are glad that you, as Head of the Popular Government of this Province, have taken an early opportunity to see not only the natural beauties of this District, but to study its many needs and difficulties. We are particularly happy that during your tour in this District, you will have laid the Foundation Stones of an extension of a leprosy hospital and of a tuberculosis hospital, thereby showing how keenly you and your Government feel in the matter of affording relief to the unfortunate sufferers from these two diseases, which are widely prevalent in our District, and which seriously need to be tackled. Sir, we thank you most heartily and sincerely for consenting to lay the Foundation Stone of these Extensions inspite of the fact that you have had a very busy official programme. We beg to assure you that this act of kindness from the head of our Government will give us encouragement to continue to render the service for which these Institutions were started and are working.

Started in 1880 by Rev. Fr. Augustus Muller, who early decided to dedicate his life to the service of God, and who having been a sufferer from ailments himself had great compassion for others who were similarly afflicted, these Institutions have grown from small beginnings to their present size. In order to be able to prescribe homoeopathic medicines the efficacy of which he had tried on himself and many others during his spare time as professor in the St. Aloysius' College, he obtained permission from his superiors to start the Homoeopathic Poor Dispensary and the Hospitals – the first of its kind in India. His fame spread far and wide, and enquiries for medicines came from people from outside the district and province, and gradually the gospel of homoeopathy became popular, and Father Muller's Dispensary and Hospital consequently came to be well known in the whole of India, Burma and Ceylon. In time Fr. Muller was joined by a band of selfless workers, men and women to help him in this noble work, and Dr. L. P. Fernandes, the chief of these became his great disciple, and continued the great work of the Founder, and extended the activities of Father Muller's Institutions in every direction, and laboured selflessly for 54 years in these Institutions, and lies buried by the side of his great master and leader in the St. Joseph's Chapel of the Leprosy Hospital.

Father Muller's keen eye saw that leprosy was a much dreaded disease in India, and with the fearlessness, courage, and faith in God that characterised all his actions, he decided to afford relief to the unfortunate sufferers from this disease. In 1890 the St. Joseph's Leprosy Asylum was begun with 30 patients on this very spot.

To start with, Fr. Muller opened the Homœopathic Poor Dispensary in 1880 and soon after in 1890 he started the St. Joseph's Leprosy Asylum. In 1896 and 1901 he constructed two large general Hospitals, one for males and the other for females. In 1902 while Bubonic Plague was raging in the town of Mangalore, Fr. Muller in record time raised buildings and sheds to combat the malignant disease. Similarly in 1904 while cholera was prevailing in the town also, he undertook to treat patients himself with his band of selfless co-operators. In addition to these, today we have an extended leprosy hospital & asylum, new and separate special general wards for males and females with up-to-date buildings and equipments, a maternity hospital, a presbytery for aged priests, a radiological department and a pharmaceutical laboratory.

The history of the growth of these Institutions is a testimony to the faith of the Founder and of his Disciple, and of those who took up the great work, the successive Bishops of the Mangalore Diocese, and the Directors who managed these Institutions, particularly our present Bishop, His Excellency Dr. V. R. Fernandes, who has undertaken the task of providing more accommodation on modern lines and giving the best medical relief to the patients.

In this task of extension the public of Mangalore have always been taking a keen interest; the King George V Silver Jubilee Memorial Fund was devoted to the extension of the leprosy hospital. But even these extensions have not been sufficient. We have been pressing on Government for further extensions for a long time, and we are glad to say that due to the sympathy and consideration of our Popular Government, and particularly to the keen interest taken by the Hon'ble Sri A. B. Shetty, the then Minister for Public Health and the present Minister for Agriculture, who is happily in our midst today, a building grant of Rs. 49,750/- has been sanctioned. We take this opportunity of thanking you, Sir, as Head of the Government for the continued sympathy and consideration which your Government have always extended to us.

Leprosy is a major problem in our District, and we have no doubt that your Government is alive to this fact. The appointment of a Government Commission to study this problem shows that it has received your earnest consideration, and we have no doubt that you will in due course give careful attention to the many recommendations of the Commission. The social aspect of the leprosy patient, his rehabilitation in life, the question of children of leprosy patients who are untainted, the after-care of the discharged patients, and similar questions require both the sympathy of Government and public support alike.

Mr. T. N. Jagadisan, Honorary Secretary, British Empire Leprosy Relief Association, Madras Province, and Secretary, Kasturba Branch, Leprosy Work, and Honorary Secretary, ad hoc Committee on Leprosy, has recorded the following remarks in our Visitors' Book:—

> "I visited the Leprosy Home of Father Muller's Hospital and rejoiced to find the place one of unusual cheerfulness. There is an air of kindly human care about the whole place which to one who has seen many leprosy institutions is a joy to witness Father Pinto, Dr. Coelho and the Sisters are doing splendid work for which the public have to be immensely thankful. The public and the Government should help the institution to expand. I was distressed to hear of the pitiful pressure for admission which the Home could not meet and which the authorities are only too anxious to meet. Compassion is the keynote of the Home's work and every one should help in this noble endeavour."

The Hon'ble Ministers and the Surgeon-Generals to the Government of Madras have time and again left on record encouraging similar impressions in general about the good work turned out in Father Muller's Institutions.

Besides the up-to-date treatment and good food that is given, the patients are encouraged to take part in outdoor work such as agriculture, sports and other activities. Dr. A. F. Coelho, who has specialised himself in skin diseases has been in charge of this leprosy hospital & asylum for the last 24 years. In this work he is being assisted by the Sisters of Charity of Milan, who form the nursing staff of the whole hospital. Dr. Coelho is keen in making the patients take interest in agriculture and other outdoor activities, and we are glad to announce that 35 patients have entered the open small garden competition of the District Flower and Vegetable Show. Last year they won many prizes, and we hope that they will win many more this year. But we require more land and more funds not only for gardening and agricultural purposes but for special handicrafts and vocational therapy, and we have no doubt that you will consider our request for these grants sympathetically. The present capitation grant of Rs. 6/4 per individual per mensem with a special allotment of Rs. 2/12 is inadequate to maintain and give the special treatment required to give relief to these patients.

The sole purpose and aim with which Fr. Muller started these Institutions viz. the relief of suffering humanity, and the supply of genuine homoeopathic medicines and free advice in its use; is being continued, and it will be our constant endeavour to keep these ideals before us. We thank Providence for the abundant blessings which he has showered on these Institutions. We thank the many donors who have contributed from time to time and come to our help; and we also thank the benign Government and the many officers who have always ungrudgingly given us the best of their support. We particularly thank the present Government for their generous grant with which we are able to proceed on another major work of relief to the suffering public. Sir, we are particularly indebted to your kindness in coming here at great personal inconvenience and in consenting to lay this Foundation Stone. We have no doubt that with your good wishes and good will these buildings will provide relief to many, and you will continue to take an abiding interest in our work and extend to us the same generous co-operation that you have now shown. We on our part assure you of our hearty co-operation and readiness for service, and wish you and your Government every success in the great undertakings you have launched for the happiness and prosperity of our people.

I now request the Hon'ble the Premier to lay the Foundation Stone of the Extensions to the St. Joseph's Leprosy Hospital & Asylum, which has been already blessed by His Excellency the Bishop of Mangalore.

MANGALORE,
28th October 1949.

Reginald Pinto,
Director, Father Muller's Charitable Institutions.

Extract from the speech of the Hon'ble the Premier of Madras on the occasion of Laying the Foundation Stone at the Leprosy Asylum, Kankanady on the 28th October ~~1949~~ 1949.

---

* * * * * * * * * * *

It is gratifying to note that in this asylum the patients are made to take interest in agriculture and other outdoor activities, and that some of them won prizes in the garden competition held in the District Flower and Vegetable Show. In your address, a request is made to the Government, requiring land and more funds for gardening and agricultural purposes and also for social handicrafts and vocational training. Another request is made for enhancing the capitation grant for the reason that the rate at which the grant is made at present is inadequate in view of the level of prices prevailing. You know the acute financial condition which the Government are labouring under, on account of which even schemes of top priority are held up. The request that you have made, though laudable, all involves financial implications. The Government will, however, consider your requests sympathetically, and do whatever is feasible within the limits of possibility.

* * * * * * * * * * * *

Request for allotment of funds for the Leprosy Asylum Patients for agricultural purposes as also for social handicrafts and vocational training.

Extract from the Hon'ble the Premier's speech on the occasion of laying the Foundation Stone at the Leprosy Asylum, Kankanady on 28-10-9

* *

This institution started by late Rev. Fr. Muller, has from its very inception, proceeded on the basis of charity, guided by the noble ideals of service and sacrifice. The kinds of relief given here, are many and varied, the most important of them being the medical relief rendered to the lepers. The Homoeopahtic Dispensary too, has won for this institution, a unique place in the field of service to the people. This institution has never been guided by any profit-motive. Its very foundation, is the virtue of love and service to the people, more --- paricularly to the poor and destitute. The medicines prepared under the Homoeopathic system and offered at cheap rates to the people, and the advices given by the medical experts, have won for the dispensary a huge popularity, justifying its name as "Homoeopathic Poor Dispensary" It has became a house-hold word in South India. Even the little profits ~~securing~~ from the sale of medicine, are utilised for service to the poor.

This leprosy asylum is not of recent origin. It was started -- several years ago, and it is perhaps one of the earliest institutions, that were established fro rendering service to the lepers. This also was started by Rev. Fr. Muller himself. And more than a half a century of its work and service, has earned a record, which will never fade. A Catholic institution though it is, this asylum is open to Catholics, non-Catholics and all persons, without any distinction of caste, colour and creed. Really it is discharging a function, which it is obligator for the State to discharge; and on behalf of the Government, I should like to place on record, the yeoman services rendered by this institution, to the people at large.

Copy of remarks made by Hon'ble Sri P.S.Kumaraswamy Raja, Premier of Madras in the Visitors' Book of Father Muller's Charitable Institutions

> I had the pleasure of visiting the various sections of Father Muller's Charitable Institutions on the occasion of my laying the foundation stone for the Leprosy Asylum this morning. This is a premier institution rendering a most humanitarian service, on the lines of the ideals of late Rev. Fr. Muller. I am sure this institution will continue to serve humanity, achieving a more ----- brilliant record in future. May the Almighty bless all their endeavours with success."

P.S. Raja

Financial assistance - Government aid-efficient management of St.Joseph's leprosy Hospital and Asylum,Kankanady Gardening, agricultural purposes, vocational training.

Ref:-No.2841-3B,dated 16th February 1950,from your office.

I thank you for the very prompt attention that you have given to my request for the special grant and the action taken in the matter.

You have requested me to see whether I cannot restrict myself to the actual non-recurring expenditure subject to a maximum of Rs.500/-. In this connection I have to state that the figure of Rs.1,500/- stated by me has been arrived at after a very careful consideration of the actual need.

Besides the expenditure of Rs.1,500/- shown, I have to incur initial expenses in providing for accommodation for the Supervisor and cooly and build cottages for them which may cost at least Rs.5,000/- and this will have to be entirely borne by the Institution. There are also other items like implements, etc. which have not been shown and which will be requir and will cost a good deal. I, therefore beg to request that th entire recurring expenditure be borne by Government for the first year.

In the leprosy hospital where it may not be possible to have fixed people to work this agricultural department on a very remunerative basis, the chief object being to provide an occupation to the patients. But we shall do our best and endeavour to work it on a remunerative basis. The area of cultivation being small and the cultivation being dependent upon the work of patients who are constantly coming and going away, we may be able to grow just enough to use and this produce as an extra item in the food and dietary of the patients. There is also the question of sentimentality and it may not be possible to introduce these products in the open market to the public for some time. In any case, we do not expect that both the products of agriculture and handicrafts etc. will be enough except for the use and consumption of our own patients and that the essential object of introducing this is to provide occupation and as a side hobby. Most of the patients may require to be trained and may not be able to produce anything substantial and may either be discharged or leave the Institution by the time they become efficient and able to produce.

I, therefore request that you may be pleased to recommend the sanction of the full amount of Rs.1,500/- as a non-recurring grant for the purpose of agriculture and occupation.

of the Order
passed

Extract of the letter from the Surgeon-General with the Govt. of Madras, Ref.No.12252-1-B/50 dated 21.2.50.

As regards the request for increased rate of capitation grant, the Government have already considered the recommendation made by the Ad Hoc Committee on Leprosy constituted under G.O.No.2835 P.H. dated 30th September 1946, and decided that the existing rates of capitation grants need not be enhanced further for the time being vide Govt. Memo. No.51454-G1/49-4. P.H. dated 10th September 1949. In viewof the prevailing high level of prices of almost every article, representations have since been made by the authorities of Leprosy Asylums at Kumbakonam and Kankanady (Mangalore) for a reconsideration of these orders. I may point out that with reference to the orders contained in G.O.No.4362 P.H. dated 23-12-48 and G.O.No.2694 P.H. dated 1st August 1949 private leprosy asylums in the Province are at present getting capita tion grants at the enhanced rates of Rs.9/- per mensem per patient (whether adult or tainted child) and Rs.4-4-0 for ea untainted child under 16 years of age. This is a temporary sanction accorded till 31-3-50. The question whether or not these rates should be ~~considered~~ continued or whether they should be further enhanced as now requested by the Secretary for India, the Mission to Lepers in his present letter is being examined separately in consultation with the Super-intendents of the leprosy asylums concerned and necessary proposals in regard to this matter will be submitted to Govt. as soon as possible.

Memo.No. 101008 L/49-4 Health dated 15/5/50

Grants - Father Mullers' Charitable Institutions - St. Joseph's Leprosy Asylum and Hospital, Kankandy -

Ref:- From the Director, F.M.C. Institutions, No.D.3338. dated 10.2.50.
From the S.G., No.2841-7-B. dated 17.4.50.

The Collector of South Kanara is informed that the Director of Father Muller's Charitable Institutions Kankandy, Mangalore, has addressed the Govt. for a grant from the state funds towards the acquisition of two plots of land bearing S.Nos.18/9 and 10 of 84 of Kankanady village, measuring 1 acre and 51 cents at a cost of Rs.6000/- by private negotiations for St. Joseph's Leprosy Asylum. The Collector is requested to report the classification of the S.Nos. in the Revenue accounts, the rate of assessment of the lands and the value of the lands.

2. The S.G., is requested to report whether the working of the St. Jospeh's Leprosy Asylum is in keeping with the general policy regarding leprosy relief evolved in the recent Conference particularly in respect of admission and treatment of only infective cases and the provision of adequate trained staff.

3. The S.G. is requested to obtain and forward full details of the initial non-recurring cost for the starting of the agriculture industry and why ~~it is necessary to construct quarters proposed by~~ the authorities of the St. Joseph's Leprosy Asylum for the supervision and the Cooly proposed to be employed for ~~the proposed~~ agricultural purposes.

4. The S.G., is requested to inform the Director of F.M.C. Institutions that the question of enhancing the capitation grant for private leprosy asylums is a general one and that it cannot be considered in respect of an ~~industrial~~ institution.

M A D R A S.

Sir,

GRANTS: Father Mullers' Charitable Institutions--St.Joseph's Leprosy asylum and Hospital--Kankanady--certain particulars--report--submitted.

Ref: Government Memo No.101008-L/49.4 Health dated 15.5.50.

18785

The particulars in respect of S.Nos.18/9 and 18/10 of 84 Kankanady village, Mangalore Taluk called for in para 1 of the Government memo cited above, are furnished below:

S.No.18/9: Wet III Single crop-classification and taram 8-1-4 assessment per acre Rs.5-10-0 extent 1 acre 22 cents- total assessment Rs.6-14-0 Pattadar Kaveri Hengsu daughter of Laxmi Mulgenidar Piad Fernandes.

IMPROVEMENTS: 1.Bettu Paddy field.
2.Palmyras 2.
3.Cocoanut bearing 3.

The gross yield of the plot is 30 muras of paddy.

S No.18/10. Garden- classification and taram 7-2-5 assessment per acre Rs.4-8-0 extent 29 cents Total assessment Rs.1-5-0 Pattadar Kaveri Hengsu d/o Laxmi- Mulgenidar- Piad Fernandes.

IMPROVEMENTS:

Bearing mango trees 14
Bearing jack 14
Cocoanut tree bearing 16
Tamarind bearing 5

There is also a thatched house with bamboo roof, mudwalls, 4 rooms which may fetch a monthly rental of Rs.4/- There is a tenant worker of Piad Fernandes residing in the house now.

The Mulgeni paid by Piad Fernandes for the above two plots is Rs.8-4-0.

2)The plots are patta lands of one Kaveri Hengsu and have been leased out to one Piad Fernandes of Kankanady village on mulgeni tenure on an annual mulgeni of Rs.8-4-0 The plots will fetch a decent amount as building sites rather than fields or garden. The hill slops adjoining this plot have been recently leased out on Mulgeni for Rs.2/- per acre- But both S.No.18/9 and 18/10 are level plots and as such will easily fetch Rs.2-8-0 per cent as mulgeni.

3)The rough valuation of the plot is as follows.

18/9 Estimated mulgeni rental of 1.22 acres at Rs.2-8-0 per cent (annual).	Rs.	305
Usufructual value of 3 cocoanut tree at Rs.3/- per ammun per tree.		9
2 palmyras at Rs.1-0-0 per tree per year.		2
Total gross annual value.		316
S.No.18/10		
Annual rental value of a house (at Rs.4 for 11 months)		44
Usufructual value of 14 mango (@ Rs.1/-) 14 jack (Rs.1/-) 16 cocoanut (Rs.3/-) and 5 Tamarind Rs.2/-		86
Total gross annual value.	Rs.	130
Total gross annual rental value of S.No. 18/9 and 18/10	Rs.	446
Deduct mulgeni		8-4
		437-12-0
Capitalised by 5%	Rs.	8755/-

In round figures the plots S.Nos.18/9 and 18/10 of 84 Kankanady village, can be valued at Rs.9000/-

Yours faithfully,

For Collector.

Sub. Grant - St.Joseph's Leprosy Home & Hospital, Kankanady - Payment of special grant from State funds.

Ref.- Government Memorandum No. 101008 L/49-6 H., dated 6th September 1950.

The St. Joseph's Leprosy Home & Hospital, Kankanady, Mangalore, generally satisfies the revised conditions laid down by Government for the grant of capitation grants except to the extent indicated in the enclosed copy of letter dated 22-9-50 from the Director, St.Joseph's Leprosy Home, Kankanady.

2. A statement showing the recurring and non-recurring cost involved in the proposal for starting an agricultural industry in the above Leprosy Home is enclosed for the information of Government.

3. I recommend that the half grant of Rs.3,000/- (Three thousand) on the estimated cost for acquiring the adjacent piece of land and a special grant of Rs.500/-(in round figures) to meet the initial recurring and non-recurring expenditure for starting the industry may kindly be sanctioned from State funds on the distinct understanding that the authorities of the institution do not claim any further grant, either recurring or non-recurring, in respect of the expenditure incurred on the scheme for starting the agricultural industry.

4. A copy of my inspection report is herewith forwarded.

Yours faithfully,

J C David

Surgeon-General with the Govt.of Madras.

Copy of letter No.D./7412 dated 2-10-50 from the Director, St.Joseph's Leprosy Hospital and Asylum, Kankanady.

With reference to your letter of 12-9-50 I have to state as follows:--

The report of the working of the St.Joseph's Leprosy Hospital and Asylum was sent on 26-7-50 in reply to reference dated 28-6-50 of the Surgeon General with the Govt.of Madras.

This hospital has agreed to the terms and conditions laid down in the circular dated 2-9-50 and has requested the Government to give time to be able to discharge all the non-infectious cases of whom there were 106.

Since sending this report 45 non-infectious cases have been discharged. Only non-infectious cases that are unable to go and cannot make immediate arrangements to go or require immediate surgical treatment are retained. I expect that it would take at least 1 year's time to discharge all these and I request that you may be pleased to give us time till at least the end of 1951 to discharge the non-infectious cases.

No new non-infectious cases have been since admitted or will be admitted in future and only infectious cases have been admitted. Every effort is made by the Institutinnto keep to the latest standards of treatment. Necessary wards will be provided with necessary equipment.

A new up to date theatre is being provided and a complete New Block for women is being got ready. This will give much more comfort and room to the patients in the male ward.

The patients are encouraged to take interest in agriculture and to grow vegetables and fruits. It is proposed to start weaving and carpentry on a small scale.

Medical Staff.- A qualified Doctor specially trained in leprosy both at Tropical School of Medicine and Tirumani Settlement is in charge and is whole time worker.

2 Members of the Sisters of Charity of Milan do the nursing work.

There is a technician who it is proposed to send for training to Chingleput, a Superintendent of agriculture who will also be a welfare worker has been appointed. Other staff - consists of ward servants etc. Intelligent patients are encouraged to help in dressings and any one suitable and capable will be trained as injectors.

There is no separate children's section. The children are with the women and are quite happy. It is proposed to set apart one wing of the female block entirely for the children and

we request that this may be allowed. While separating the children, it will not give the sence of isolation, which the small children may otherwise feel.

The Institution has been and is always co-operating with the Government and is willing to do so. Because of the limited personnel of staff, it may not be possible to give its staff for long periods of survey work etc. but would give expert advice whenever required.

There is complete tolarence in religious matters and the institution will not interfere in this matter/any x time.

The Institution welcomes the revival of the advisory committee as suggested and will do its utmost to assist this committee.

The Institution is willing that the hospital may be visited by the persons named in the circular.

In conclusion I request that the Government may give atleast one year's time for the complete discharge of non-infectious patients who are being steadily discharged.

The hospital will admit infectious cases to the fullest capacity but I think that there is no room for further extensions even of a temporary nature, as the full ground available has been built upon.

Our request for more land for agricultural purposes at a cost of Rs.6,000/- remains. We hope Government will meet the expenditure in full. The Superintendent of agriculture who is the welfare officer and the cooly proposed are necessary as he will have to see to the general conduct, discipline and well being of the patients and the cooly to help him. As such they will have to be on the premises.

The Officer or Government to pay Rs.500/- for the initial non-recurring expenditure is accepted.

True copy.

Surgeon-General with the Government of Madras.

I visited the St.Joseph's Leprosy Hospital and Asylum, attached to Father Muller's Charitable Institutions, Kankanady, today (14.10.50) and was shown round by Dr.Coelho, the Medical Officer, in the absence of Rev.Fr. Pinto who was indisposed.

2.This is a premier institution in this State doing most humanitarian service in the cause of the unfortunate victims of this loathsome disease. The patients are very sympathetically attended to by the Medical Officer and other members of the staff of the hospital, and this was evident from the cheerful and happy appearance of the patients who seem to be known individually to the staff. I was particularly interested to see two families with 2 or 3 children each undergoing treatment in this institution. But I was glad to learn that the children are making satisfactory progress after treatment by the latest drugs which have come into use.

3. The sanctioned bed strength of the hospital (Leprosy department) 92, comprising of 62 for men and 30 for women, and there were 59 men, 24 women and 1 child on the infectious side and 38 men, 17 women and 5 children on the non-infectious side, thus making a total of 144.

4. This hospital has agreed to the new conditions imposed by Government to restrict admissions only to infectious types and they assured me that the remaining non-infectious cases will be discharged as soon as possible. I understand the main reason standing in their way to send away all the non-infectious cases is that most of these patients are not wanted in their homes and that there is no place for them to remain. Dr.Coelho, the Medical Officer, promised that he would not admit any non-infective cases hereafter and he is trying to his best to discharge the non-infective cases at the earliest possible time.

There seems to be a ~~suit~~ clause in original Endowment made that this should be a hospital as well as an Asylum and the authorities are not sure if they have a right to turn away non-infective cases. The only alternative is to provide them elsewhere. I have had complaints made to me by the towns people that the non-infective cases discharged are haunting the town and are becoming a nuisance.

5. There only one microscope and it is used for examination of Urine, Stools, Sputum, Blood count and ordinary Hamoglobin Indix. Reports of laboratory tests are accurately maintained for reference at any time.

6. The diet of the patients is satisfactory. They are given bread and coffee in the morning, tea or coffee in the evening in addition to the usual midday meal consisting of rice and curry meat being given twice a week and fish three times a week.

The diet is prepared in the general kitchen to the main institution and it is supervised by a Religious Sister. I consid this kitchen to be one of the best from the point of cleanliness and the arrangements made for storing cooked food, particularly the arrangements existing for placing and removing big vessels from the oven. I was surprised to see that all the kitchen servants are women and they are ably managing it without any difficulty.

7. The patients are engaged in useful occupations such as agriculture, which consist of growing fruits and vegetables. The authorities are seriously planning to start more useful and paying industries such as carpentry and weaving, and also to increase their agricultural activities by acquiring adjacen land for cultivation of dry crops. This is very useful ~~both~~ as it affords an useful occupation to the patients and also prove to be a source of income to the authorities. A grant amounting to Rs.6000/- has been asked for from Government for acquiring this land and I recommend that the land is badly required

for expanding their agricultural industry, the grant may be paid.

8. The institution is adopting the usual treatment with Hydnocarpus inradermal treatment for reactions with Pot. Ant. Tart and symptomatic treatment, application of crude Hydnocarpus oil, tonics of Iron and Yeast and surgical treatment for all surgical conditions. Sulphatrone and Diasone treatment is used only in a restricted number of cases. I am fully satisfie with the treatment given to the patients and the Medical Office seems to be conversant with the history of each case by memory from the manner in which he was explaining the several cases before me.

9. The percentage of admissions between various communitie is as follows:

Non-Christians 56.
Christians: 44.

and there is no discrimination in the matter of admissions. Patients are admitted as and when they arrive, but they are put on waiting list if there is no accommodation. Usually it takes about 1 to 3 months for getting admissions in case they are in the waiting list. The Medical Officer informed me that it was a pathetic sight to see patients waiting at the door begging for admission and any amount of threat would not deter them to leave the premises and that very often he was put in this difficult position, to refuse admission or to admit them.

I am very well satisfied with the working of this institution which is being run with true Missionary spirit for the suffering humanity.

Kankanady, 14.10.50.

Surgeon-General with the
Govt of Madras.

Health (L).

Part II Scheme for 1951-52.

Sub:- Grant - Building - To St.Joseph's Leprosy Hospital and Asylum, Kankanady, for acquisition of land.

Summary.

Head of Account.	Item of expenditure.	Ultimate cost Non-recurring.	Cost in 1951-52. Non-recurring
38.Medical-b.Hospitals & Dispensaries. G.-Grants to Private Medical Institutions - Ordinary Areas 3.Buildings and Equipment grants - Buildings.	~~Half grant to St. Joseph's Leprosy Hospital and Asylum, Kankanady -~~ ~~Grant for~~ acquisition of land ~~for agricultural purposes~~.	Rs. 3,000	Rs. 3,000

Explanatory Note.

Among the occupational activities provided for in-patients in a Leprosy Sanatorium, agricultural farming is one. The authorities of the St.Joseph's Leprosy Hospital and Asylum, Kankanady, South Kanara, proposes to start an agricultural industry in the Sanatorium as an occupational activity for patients. For this purpose they want to acquire additional lands measuring 1 acre and 51 cents at a cost of Rs.6,000/-. and have applied to Government for a grant to cover the cost. As private leprosy institutions like the St.Joseph's Leprosy Hospital & Asylum, Kankanady, which are doing good work, should be encouraged by the Govt., it is considered that a half grant of Rs.3,000/- may be sanctioned to the institution. The Health Dept. accordingly recommends that necessary provision may be made in the Annual Estimate of Expenditure for 1951-52 as shown in the summary above.

EXPLANATORY NOTE.

Among the occupational activities provided for in-patients in a Leprosy Sanatorium, agricultural farming is one. The authorities of the St. Joseph's Leprosy Hospital and Asylum, Kankanady, South Kanara, propose to start an agricultural industry in the Sanatorium as an occupational activity for patients. For this purpose they want to acquire additional lands measuring 1 acre and 51 cents at a cost of Rs. 6,000 and have applied to Government for a grant to cover the cost. As private leprosy institutions like the St. Joseph's Leprosy Hospital and Asylum, Kankanady, which are doing good work, should be encouraged by the Government, it is considered that a half-grant of Rs. 3,000 may be sanctioned to the institution. The Health Department accordingly recommends that necessary provision may be made in the annual estimate of expenditure for 1951-52 as shown in the summary above.

T. M. S. MANI—23-11-1950.

Health (L2).

Grant - St. Josephs Leprosy Hospital and Asylum, Kankanady for acquisition of site - Reqn: from the S.G. No. 2841-14B-Bud/50 dd 26/10/51

Memo No. 101008 L 49/50 - 12 d. 22-3-51.

It is proposed to sanction a half grant not exceeding Rs. 3000/- to the Father Muller Charitable Institutions to meet the cost of acquiring 1 acre 51 cents of land for the St. Josephs Leprosy Hospital and Asylum at Kankanady, Mangalore. The S.G. is requested to state, very urgently, the conditions subject to which the grant may be sanctioned.

Extract of minutes of H.C.M. on page 1 c.f.

'Put up.

P.S.K.
23.12.49".

p 1 cf

On 28-10-49, the H.C.M. laid the Foundation Stone of the extension to the St. Joseph's Leprosy Asylum, Kankanady. In the welcome address presented to the H.C.M. the authorities made a request requiring land and more funds for gardening and agricultural purposes and for handicrafts and vocational training and also for the enhancement of the capitation grant. The H.C.M. appreciated the good work that is being done in the asylum and referred to the present financial stringency and he is reported to have stated as follows:-

pp 15-16 cf in p 16 cf

"The Govt. will, however, consider your requests sympathetically and do whatever is feasible within the limits of possibility".

in p 1 cf

The authorities of the Asylum have approached the Govt. for grants and have made the following requests:-

pp 1 + 11-12 cf

(1) A grant of Rs.6000/- for acquisition of land for agricultural purposes;

pp 9 + 11-12 cf p 9 -1-

(ii) A special grant of Rs.1500/- towards the initial cost of the scheme for starting agricultural industry; and

(iii) Enhancement of capitation grant.

(i) ~~on p.1 ante~~ above. It is reported that the buildings have been put up on the land previously used for agriculture and hence there is a need for land for the purpose. The proposal is to acquire 2 plots of land bearing ~~S.Nos.18/9 an~~

bearing S.Nos. 18/9 and 10 of 84

~~10 of 84~~/of Kankandy village, measuring 1 acre and 51 cents at a cost of Rs.6000/- by private negotiations, as the land acquisition proceedings will take a long time. The plots of land which are adjacent to the asylum, vide A and B in the site plan below, are reported to be in great demand by private individuals. The D.M.O. has inspected and recommended the purchase of the site for agricultural purposes. The S.G. suggests that this may be considered as a Part II scheme for 1951-52. It is for consideration whether this department may agree with the S.G.

(ii) on page 1 ante. The special grant of Rs.1500/- asked for, is to meet the immediate expenses in connection with the employment of a Cooly and a supervisor and the purchase of miscellaneous equipments and making arrangements for the starting of the agricultural Industry - vide details of cost on page 19 c.f. The Asylum authorities have reported that they will by themselves have to incur an additional expenditure of about Rs.5000/- for provision of accommodation for the Supervisor and the Cooly. The S.G. has examined the request and has recommended a special grant of Rs.1500/- for the purpose. It appears that this expenditure will have to be incurred only after the purchase of the land for the agricultural purpose. If the grant for acquisition of land is to be treated only as a Part II scheme for 1951-52, it is for consideration whether the question of sanctioning this special grant also may be considered along with that.

(iii) on page 1 ante. The Govt. have been paying capitation grants to private leprosy asylums in two instalments, half-yearly, on the daily average number of leprosy patients during each half year. In April 1943, the rates of capitation grants were fixed at Rs.7-12-0 p.m. for an adult and Rs.3-12-0 p.m. for an untainted child under 16 years. Subsequently on representations received from certain private leprosy asylums, for an increase, in view of the high cost of living, the Govt. in consultation with the S.G. temporarily increased the rate with effect from 1.4.48 to Rs.9-0-0 p.m. whether adult or tainted child and Rs.4-4-0 p.m. per untainted child under 16 years. In September 1949, it was considered that the capitation grant need not be increased for the time being. The enhanced rate of capitation grant was sanctioned till 31-3-50 and the question whether or not these

these rates should be continued or whether they should be further enhanced is under the consideration of the S.G. and proposals in this regard have not yet been received from the last S.G. He has been asked to expedite the proposals on 3.5.50. This rate of capitation grant to be sanctioned is general question applicable to all such private leprosy asylums and therefore the St. Joseph's Leprosy Asylum authorities may perhaps be informed that this is a general question and that orders will issue in the matter in due course.

The file may be sent to Fin. u.o. for remarks before circulation to H.M.(H) and to H.C.M. with reference to his minutes extracted on page 1 ante.

9.5.50.

Klein (i).

While the matter should be put forward as a Part II scheme, if necessary, information is not complete. First because the Asylum is in urgent need to and has offered As 6000 for the land to induce the owner to part with the land quickly. It does not mean that should a foot an encroachment bill or part liberty. Asks the Collector to report the classification of the S. No in the Rev accounts, the value of the assessment of the lands and the value of the lands.

2. The S. H. should also report whether the working of the Asylum is in keeping with the general policy re Leprosy Relief evolved at last months' Conference or points out in respect of admission and treatment of only infective cases and the provision of adequate trained staff. (No leprosy institution should be encouraged otherwise, merely as an Asylum for burnt out cases).

1753-4 H
10.5.50

Item (ii) will have to be considered along with item (i). But item (ii) is rather nebulous. We must have full details of the medical non-recurring cost. Both S.G. to obtain details of the same and state why it is necessary to continue grants. There can be no case for any recurring grant as it is quite possible to make occupational therapy more or less self-supporting. P

4. (iii) is a general question and cannot be dealt with in respect of an individual institution

5. Finance need not be troubled at this stage. Issue memo to S.G. and Collector, and they may see each other, for information.

From the SG. no. 2841—13 B dt. 7.10.50. p42 cf

Please see the notes on pages 1-4 above, the S. Kanara Collector's letter on p 31 cf, and the interim report from the SG. on pages 42-43 cf. XXXX

2. Grant for acquisition of land:- The authorities of the St. Joseph's Leprosy Sanatorium, Kankanady South Kanara have applied for a

para 2, pg 4

grant of Rs. 6000/- towards cost of acquisition of additional land, (two plots measuring 1 acre and 51 cents), ~~at a cost of~~ for by private negotiations. The land is reported to be necessary for use in connection with the agricultural and occupational activities of the Sanatorium. With reference the Secy's note at X on p 3 ante, it is subd. that the Collector of S. Kanara has reported that the plots ~~referred~~ can be valued roundly at Rs. 9,000/-. The Collector's letter on pages 31-32 cf. may be perused in this connection. The sum of Rs. 6,000/- fixed by the Sanatorium authorities through private negotiation seems reasonable. The point now for consideration is whether the Govt. may sanction the grant to cover the entire cost viz Rs. 6000/- or whether the Govt. may sanction only a half grant of Rs. 3000/-. ~~In~~ In G.O. No. 1287 P.H. dt 20.4.48 the Govt. have sanctioned to the same institution a half grant of Rs 49,750/- towards cost of additional buildings. Perhaps the Govt. may now sanction a half grant of Rs. 3000/- towards the cost of acquisition of the additional lands. If so, the proposal may be considered as a 'Part II Scheme for 1951-52. For orders.

cf pp 1,1-62 cf (J)

For the basis of the ~~the~~ estimated value of the land, half grant will be Rs 4,500. But Rs 6000 asked for by the institution may be considered. If so

3. Special money grant of Rs. 1500/-. The Sanatorium authorities have applied for an initial non-recurring grant of Rs. 1500/- towards cost of implements, pay of staff etc for an agricultural farming proposed to be started on the lands

proposed to be acquired. With refce. to Secy's orders at P on p 4 ante the SG. was asked to obtain and forward full details of the initial non-recurring cost for the agricultural ~~colony~~ industry and why the authorities of the Sanatorium should consider it necessary to construct quarters for the Supervisor and Cooly to be employed for the industry. In his letter on pages 42-43 cf. the SG states that he is visiting the institution on 14.10.50 and that he will be sending his report on return from tour. As there will not be sufficient time to wait for the S.G.'s report, and to the proposal may be examined even now in connection with the Part II Schemes for 1951-52. As the Sanatorium authorities themselves are prepared to meet the cost of Cottages for the Supervisor and Cooly, the Govt. need not perhaps ~~take this~~ go into the question of quarters for these men. As regards the details of the initial non-recurring cost for the starting of the agricultural industry refd. to at P above the details at Page 19 cf. may perhaps be taken to be sufficient for the present. If so, the Govt may consider the question of paying a special ex-gratia grant of Rs 1500/- non-recurring towards for the purpose as a Part II scheme for 1951-51, along with the proposal mentioned in para 2 above. For orders.

P

This amount is small and may be considered.

4 to 6 ~~50~~

~~4. Finance may see for remarks~~

~~TR 13.10.50~~

4. With reference to para 2 of Secy's note on p 3 ante, it is submitted that the Leprosy Institutions

Enquiry Committee has made a good report about the working of this institution - vide page 8 of the Report at (V). Further it has recently been ordered that the conditions regarding admission of non-infective cases and re. adequate provision of trained staff in Leprosy institutions should be insisted upon with effect from 1.1.51. In the circumstances, the proposals in paragraphs 2 and 3 above may be proceeded with.

5. Finance may see for remarks.

The amounts applied for by the institution may be considered. The proposal may be considered as a Part II Scheme for 1951-52

see 1. p. 500

write fully

see 3 on p. 5 ante

89535. OCT 1950 B.E.IV Deptt

The authorities of the St. Joseph's Asylum, and Hospital, Kankanady, have approached the Government for the following grants:-

(1) ~~the~~ grant of Rs 6,000 for acquisition of land for agricultural purposes; and Rs 500 — see B on pl. urge

see 2 & 3 p. 4 ante

(2) a special grant of Rs (1,500) towards the initial cost of the scheme for starting agricultural

industry.

It is stated that the land is necessary for use in connection with agricultural and occupational activities of the Sanatorium and that the grant applied for is intended to meet the cost of acquisition of additional land by private negotiations. The Collector of South Kanara has reported that the plots proposed to be purchased can be valued at Rs 9,000. Health Department consider that private Leprosy Institutions, particularly an institution like St.Joseph's Leprosy Asylum which is doing very good work should be encouraged. That Deptt. has accordingly recommended that a half grant of Rs 3,000 for the land and a special grant of Rs 1,500 for agricultural farming scheme which will be part of occupational therapy may be considered as a Part II Scheme for 1951-2.

In view of the Health Dept's recommendation and as the amount of the non-recurring grant is small this Department may agree with Health that the proposal for a half grant of Rs 3,000 may be brought forward as a Part II scheme for 1951-2. As regards the special grant of Rs 1,500, it does not seem necessary that grants of the kind should be given. In view of the fact that the amount involved is small, it should be possible for the Hospital authorities to meet this expenditure also, like other such from their own funds. Cf Parl. Q. No. 23 C.F. Finance may therefore advise that the special grant of Rs 1,500 applied for may be refused. + Hence it need not be considered in a Part II Scheme.

Finance U.O 89535 BE IV dated 27-10-50.

ASSISTANT SECRETARY 4 NOV 1950 HEALTH DEPAR

Please see the SG.'s letter on pages 45-51 ante. The main file on the subject was sent to Finance yesterday (26.10.50) with the proposals that the management of the St Joseph's Leprosy Home & Hospital, Kankanady be paid :-

Note No. no 101008 L/49-8 26.10.50 pg ante

A

i) a half grant of Rs. 3000/- towards the cost of acquisition of certain lands required for the Hospital; and

ii) a special grant of Rs 1,500/- to meet the initial expenditure on purchase of implements etc. required for starting an agricultural industry in the Hospital.

Gr II

2. The SG. had been asked to report on the working of the Hospital and also to furnish full details re. the agricultural industry proposed to be started. But as the SG.'s reply was not received till the afternoon of 26.10.50, and as the proposals at A above were intended to be taken up as a Part II Scheme for 1951-52, the main file was sent to Finance on 26.10.50 to be in time.

B

3. In his letter on p 45 ante the SG. recommends that (i) the management may be paid a half grant of Rs. 3000/- for acquisition of land as proposed at A(i) above, and that (ii) the management may be paid only Rs 500/- towards purchase of implements etc instead of Rs. 1500 proposed at A(ii) above. This Dept. may therefore suggest that the grants may be as now proposed by the SG.

27/10/50

B onp 9 ante. Finance may be requested to offer their remarks on the main file accordingly.

4 with regard to the wording of the institution, the SS reports that he is very well satisfied.

5 with reference to M' onp pages 4 and 5-6 ante it is subm. that time has been granted till 1.1.51 for the discharge of non-infective cases from institutions. If the institution is unable to discharge all non-infective cases by that date it will not be eligible for Govt. grants. The question of granting a further extension of time for completing the discharge of all non-infectives may be considered on merits, after 1.1.51, if the institution makes a representation separately for orders.

May be sent to Finance for continuation of this Deptt no. no. 101008L/49-8 dt 26.10.50.

ADDITIONAL DEPUTY SECRETARY 28-OCT 1950 FINANCE DEPARTMENT

ADDITIONAL DEPUTY-SECRETARY 89874 28 OCT 1950 B & IV FINANCE DEPARTMENT

Notes from page 4 ante may be perused. This Dept. have proposed (1) that a half grant of Rs.3,000/- may be paid to the authorities of the St.Joseph's Leprosy Asylum and Hospital, Kankanady, South Kanara, towards the cost of acquisition of land for agricultural farming to be undertaken by the inmates of the Hospital as part of their occupational activity and (2) that a special grant of Rs.500/- may be paid to the Hospital authorities towards the cost of implements etc. required for starting the agricultural industry. This Dept. have also suggested that both the proposals may be considered as a Part II Scheme for 1951-52. Finance have agreed only to the payment of a half grant of Rs.3000/- towards the cost of acquisition of land, being considered as a Part II Scheme for 1951-52. As regards the other proposal, Finance have advised that the Govt. may refuse the special grant of Rs.500/- for purpnase of implements etc. As the amount involved is small and as it should be possible for the nospital authorities to meet this expenditure, Health may accept the view of Finance that the special grant may be refused.

2. The case may be circulated to H.M.(H) and H.M.(Fin.) for orders whether the proposal to sanction a half grant of Rs.3000/- to the St.Joseph's Leprosy Hospital, Kankanady, towards the cost of acquisition of land for agricultural purposes may go forward as a Part II Scheme for 1951-52.

Please see the part-II note at p3/ante. ~~Grants to private and local~~ ~~voluntary hospitals~~ Building grants for private medical institutions are sanctioned subject to certain conditions. Please see conditions at p3/ante of B.O.

1325 Health d. 15-11-50. In the present case the grant is towards the cost of acquiring a land for a private medical institution and the amount is very small - it is only Rs. 3000/- The question arises whether the conditions enjoined in the case of sanctioning grants should with modifications be enjoined in this case also. Perhaps as the amount of the grant is very small the grant may be sanctioned without any of these conditions. Subject to orders on this point the draft below is for approval. It may be sent to Fin. for acceptance. It will become only after the budget is voted by the Legislature.

2
20/3/51.

It is not the question whether the grant is small or otherwise that governs the issue. The question is what conditions are necessary in such cases of grant for acquisition of lands. It is essential that the land should be used for the purpose for which it was acquired with help of State grant. The usual conditions should be suitably amended. The S.G. may be consulted urgently.

22.3.51

A draft Memo. to the S.G. is submitted below for approval.
